ABOUT ME

I'm a B.E Computer Science and Engineering Graduate, who is interested in Computers and learned and created simple works using Python, JavaScript etc. Also learnt cloud technologies such as AWS and DevOps. Apart from these skills I'm also good in Documentation and also can produce simple presentations too, and have some knowledge on graphics tools like editing SVG, Photoshop using GIMP and video editing. I enthusiastically embrace new technologies, committed to ongoing self-improvement. I also have interest in Game Development and recently got interested in Electronics and Microcontrollers.
